

Working with the University Policy

AccessUni provides lead generation, profiling and vetting of students for universities and supports prospective students who wish to study in the United Kingdom or the European Union.

Our expert counsellors provide one to one support to students who have chosen the University they wish to study at, this includes profiling, vetting and checking their admission documents. Our counsellors provide support and work with the students in preparing them for their journey to UK and EU.

Our terms of working with the University is simple, we send the University the prospective student as an Offer with supporting documentation for admission with our Agreement of Engagement. The University considers the student documentation for admission and confirms the Acceptance.

Our policy is co-developed with members and wider stakeholders including students and staff, in seeing students success. We also help students develop and prepare for admission through our expert guidance and advice.

Our policy shapes our developments in partnership with students and the universities across several areas, including:

- Collaboration in student admission
- Protecting student interests
- Supporting admission in UK and EU HEIs
- Efforts to attract international students to the UK and the EU.

Our priorities

Student guidance and support in their endeavours to study in the UK and the EU. Working in partnership with associated HEIs and support schools, colleges, and universities in Commonwealth Countries. Our focus is on:

- helping international students
- understand the admission processes of universities
- make plain the immigration requirements
- develop sustainable admission process for international students
- working on return on investment for students

Our activities

- partnering with English medium schools, colleges, and universities in commonwealth countries
- promoting high level understanding of the United Kingdom higher education environment.
- Supporting and attracting international students
- Staff development workshops and seminars
- Student Guidance Workshop and Seminars
